Past Archbishop Farley at the Cathedral ind Thousands Massed on Sidewalks -Wind Tosses the Banners, but Sun Shines on Them Too-Few Mishaps.

Did they march? They sure did! The siggest and grandest and finest of St. Patrick's day parades right up Fifth avenue in front of Archbishop Fartey there on the reviewing stand before the Cathedral and every man taking of his ad to the Archbishop. All but the flag bearers; they were fighting the wind that time to keep their flags up straight, while the hats of them came off anyway and skipped up the street.

Patrick J. Gilroy-the same who was grand marshal on a big horse with a white each all about him-Patrick J. Gilroy said after it was all over that were more men in line yesterday than ever before on the day when the green is hanging out along the streets. It snowed in the morning, blew in the fternoon and cut up like Kilkenny cats all day long, but it was true weather of St. Patrick, the more power to him, and sobody minded what happened after the parade got started from Forty-second treet up the long stretch of Fifth avenue.

To be correct St. Patrick's day began on Tuesday night when the friends of Ireland gave their dinner at Shanley's and, Patrick McGowan, Sheriff Foley and all the other big bugs of the city in the great day. Then yesterday morning before the boys began to gather for the big parade they all went to church Up at St. Patrick's Cathedral on Fifth venue where Archbishop Farley himself celebrated a solemn pontifical mass at 11 o'clock, Col. Duffy and all of the ies of the Sixty-ninth Regiment ded. After the Rev. D. J. McMahon preached the sermon Archbishop closed the services by pronouncing a papel benediction.

IF IRELAND WERE UNITED Country Could Get Political Liberty Almost To-morrow, Says John Redmend.

Special Cable Desputch to THE SUN. LONDON, March 17 .- John Redmond, M. P., in a speech at an Irish banquet here to-night, referred to the creation of an Is especially profitable Irish national university as a great landmark on the road to independence.

He said that the two great obstacles to Irish liberty, the land question and the education question, were now almost entirely removed. The only obstacle to the achievement of national liberty to-day was the self-made discords and dissensions of the Irish.

He was convinced that if Ireland were really united it would get political liberty almost to-morrow.
